

Announcement: Moody's changes outlook on City of Prievidza's Aa3.sk NSR to stable from negative (Slovakia)

Global Credit Research - 20 Oct 2011

London, 20 October 2011 -- Moody's Investors Service has today changed the outlook on the City of Prievidza's Aa3.sk national scale issuer rating to stable from negative.

RATINGS RATIONALE

The change in outlook to stable reflects the significant turn-around in Prievidza's fiscal management following the election of a new administration, which enjoys strong political support in the city's assembly. "After elections in late 2010, the city's newly appointed administration responded to the city's challenging financial position and high debt levels by introducing significant cost-cutting measures to operating and capital budgets and restricting all new debt," says Katerina Hanzlova, Moody's lead analyst for Prievidza.

In line with the conservative budgetary management in place, Moody's expects a gradual recovery in Prievidza's operating performance and debt-repayment capacity, as well as decrease in debt levels in the next two years. "Lay-offs, energy savings and re-negotiation of some suppliers' contracts introduced during 2011 coupled with a gradual recovery in shared-tax revenue should foster operating performance to a greater extent on annual basis in 2012. In addition, significant cuts in current and future capex should release budgetary pressures and co-funding requirements," concludes Mrs. Hanzlova.

Moody's notes that a failure to restore moderately positive operating balances from 2011 onwards or a further increase in debt and debt servicing requirements above the level targeted for 2011 could exert downward pressure on the rating.

METHODOLOGY

The methodologies used in this rating were Regional and Local Governments Outside the US published in May 2008, and The Application of Joint-Default Analysis to Regional and Local Governments published in December 2008. Please see the Credit Policy page on www.moody.com for a copy of these methodologies.

Moody's National Scale Ratings (NSRs) are intended as relative measures of creditworthiness among debt issues and issuers within a country, enabling market participants to better differentiate relative risks. NSRs differ from Moody's global scale ratings in that they are not globally comparable with the full universe of Moody's rated entities, but only with NSRs for other rated debt issues and issuers within the same country. NSRs are designated by a ".nn" country modifier signifying the relevant country, as in ".sk" for Slovakia. For further information on Moody's approach to national scale ratings, please refer to Moody's Rating Implementation Guidance published in August 2010 entitled "Mapping Moody's National Scale Ratings to Global Scale Ratings".

Prievidza is a medium-sized Slovak city, with almost 50,000 inhabitants. It is located in the western part of Slovakia in the Trencin Region.

REGULATORY DISCLOSURES

For ratings issued on a program, series or category/class of debt, this announcement provides relevant regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series or category/class of debt or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides relevant regulatory disclosures in relation to the rating action on the support provider and in relation to each particular rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides relevant regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moody.com.

Moody's considers the quality of information available on the rated entity, obligation or credit satisfactory for the purposes of issuing a rating.

Moody's adopts all necessary measures so that the information it uses in assigning a rating is of sufficient quality and from sources Moody's considers to be reliable including, when appropriate, independent third-party sources.
